

What is it? The Terryville Public Library Summer Reading Program is a chance to learn new things, find great books, and receive prizes.

How does it work? Starting on **Monday, June 20** choose the program that works best for you and register. Program options include paper or online logs, as well as programs geared toward different ages. Both paper and online participation is exactly the same. There are two programs, one for independent readers and one for children not quite reading on their own.

The only difference in these program are the challenges. Visit <http://terryvillepl.readsquared.com> to register for the online program, stop by the library to register for the paper program.

How do I earn cool stuff? Every week, we release a new list of challenges, as well as hand out small incentive prizes. Incentive prizes are available while supplies last. Some challenges require four activities while others require only one or two. All parts of a challenge must be completed in order to earn a ticket. Participants earn 1 ticket for every completed challenge and 1 ticket for every hour read. Participants can also earn 1 ticket for every event attended. Tickets are then entered into our prize drawing. Visit the library to receive your tickets.

Visit <https://terryvillepl.info/events/> to register for events. Registration opens 3 weeks prior to event date.

2022 Summer Reading Program Calendar of Events (School Aged)
